

# SOCIAL, EMOTIONAL AND/OR BEHAVIOURAL ASSESSMENTS

Assessments are available for children experiencing social, emotional and/or behavioural difficulties in order to ascertain the nature and origin of the difficulties and to recommend appropriate treatment options.

Such assessments generally involve a structured clinical interview, observations and/or administration of standardised measures. If necessary, a written report can also be prepared and liaison with educational institutions facilitated.

Costs for this service vary according to the nature of the assessment. This can be discussed at an initial consultation.
